PROFESSIONAL SUMMARY

Cybersecurity specialist with strong foundational knowledge in Governance, Risk, and Compliance (GRC), supported by globally recognized certifications and practical virtual lab experience. Proficient in identifying risks, supporting audit readiness, and applying international standards such as ISO/IEC 27001 and NIST. Highly motivated to contribute to secure digital environments

EDUCATION

Bachelor of Science – Soil Science

Obafemi Awolowo University, Ile-Ife, Nigeria
Graduation: September 2015

CYBERSECURITY EXPERIENCE & PROJECTS

Google Cybersecurity Certificate Labs (Online)

Dec 2024 – Apr 2025

- Conducted security audits and vulnerability assessments.
- Created compliance documentation aligned with SOC and ISO standards.

Mastercard & Tata Cybersecurity Simulations (Forage)

May – Jun 2025

- Led phishing awareness campaigns.
- Implemented IAM policies to enhance data security.
- Presented cybersecurity strategies to a simulated stakeholder audience.

AIG Shields Up Threat Mitigation Program (Forage)

May 2025

- Evaluated threat landscapes using CISA advisories.
- Recommended ethical mitigation plans using GRC insights.

IBM AI Fundamentals Capstone (SkillsBuild)

Mar – Apr 2025

- Applied AI governance principles emphasizing transparency and fairness.

Virtual Lab Setup – Cybersecurity Practice Environment

Jun – Jul 2025

- Installed and configured Ubuntu OS with VirtualBox.
 - Integrated Wireshark and Autopsy for traffic monitoring and forensic analysis.
-

TECHNICAL SKILLS

- **GRC & Compliance:** ISO/IEC 27001, NIST, Risk Assessments
 - **Tools:** Git, GitHub, Qualys, Wireshark, ServiceNow, Autopsy, Power BI, Zoom
 - **Programming & Systems:** Python (basic), SQL; Linux CLI, Windows OS
 - **Soft Skills:** Documentation, Analytical Thinking, Communication, Time Management
-

CERTIFICATIONS

- Google Cybersecurity Professional Certificate
 - ISO/IEC 27001 Information Security Management
 - Splunk Cybersecurity Awareness
 - IBM AI Fundamentals with Capstone
-
